CINCINNATI
HEALTH DEPARTMENT

Since 1826, the Cincinnati Health Department (CHD) has been committed to protecting and improving the health of the people of Cincinnati. As a nationally recognized leader in public health, CHD advocates for responsive health and human services that promote healthy living environments and social well-being, as well as works to reduce health inequities such as poverty and unemployment.

CHD has a Federally Qualified Health Center (FQHC) designation status and serves over 40,000 patients annually. CHD operates seven Primary Care Health Centers, one free-standing dental center, one free-standing vision and dental center, and thirteen School-Based Health Centers.

"Our mission is clear — to achieve health equity and improve the health and wellness of all who live, work and play in Cincinnati. Our vision is focused on being advocates for better health for all Cincinnatians. It is a promise to the community from our dedicated employees who strive for excellence in each interaction."

- Interim Health Commissioner, Marilyn E. Crumpton, MD, MPH
